Pilot Studies for Online Education

Creation of Digital Infrastructure

Online Teaching Platform and Tools

Content Creation, Digital Repository, and Dissemination

Addressing The Digital Divide

Virtual Labs

Training and Incentives for Teachers

Online Assessment and Examinations

Blended Models of Learning

Laying Down Standards

The benefits of online/digital education cannot be leveraged unless the digital divide is eliminated through concerted efforts (e.g. Digital India campaign, the availability of affordable computing devices). It is important that the use of technology for online and digital education adequately addresses concerns of equity.

High quality educational software, Machine translation of uploaded content, Advanced Online Courses, Publishing software for educational Material, Content repositories in Indian languages and Online assessment can help in delivering Quality learning.
