NIOS has been a great leader in the Open Education domain, not just in India, but globally.

CEMCA joining hands with NIOS brings about global dimension as well as the interface between schooling and tertiary education system in ODL.

Conferences produce ideas but collective actions produce results; Collaboration is key to achieving outcomes.

Undertake well planned impactful programmes and demonstrate results

There is a need for bringing many other actors to become stronger

It is time to pat on each others’ back and celebrate success
