Community Radio Awareness Workshop February 11th - 13th, 2020 at Dimapur, Nagaland.

Executive Summary

- The Workshop was held in Dimapur, Nagaland from **February 11**th **13**th, **2020** at Hotel Acacia.
- There were **48** participants in total, of which 38 participants were from Nagaland and 9 from Manipur and 1 from Assam.
- The expert team included: Mr. Amit Dwivedi, PMU, CRS Cell, Ministry of Information and Broadcasting, Prof Sapu Changkija- Dean, School of Engineering & Technology-Nagaland University, Prof Madhu Parhar, Director CEMCA, Dr. Sangeeta Kakoty- Jnan Taranga CR- Guwahati, Ms Debanjana Deb Barman, Friends Radio, Agartala, Tripura, Dr. Chandan Kumar Goswami, Radio Luit, Guwahati, Mr. Khushwinder Singh, Manager, BECIL, Noida, Uttar Pradesh, Ms. Monica Sharma, Programme Assistant, CEMCA, and Dr. Monica Nagpal, Project Associate, CEMCA, New Delhi.
- In Inaugural Address, Prof Sapu Changkija enlightened the participants about the need and suitability of radio for citizen's education and overall development of society.
 CR as a medium that is **Approachable, Affordable and Suitable** to use by all people, cutting across literacy barriers.
- Prof Madhu Parhar shared CEMCA/COL's activities in Education, Skill Development and Community Media and CEMCA's role in setting up more than 100 community radio stations in India. She talked about CEMCA's vision for development of the CR sector. She focused on the need of community radio in education specifically in Higher Education and skills. She stressed that CR could act as a vehicle to carry out variety of need based knowledge and information to the communities.
- Mr. Amit Dwivedi, PMU, CRS Cell, Ministry of Information and Broadcasting, Government of India, Delhi explained about the Community Radio Policy Guidelines and Grant Permission for Funding for the existing and new CRS and other rules and recommendations implemented by Govt. of India for CRS sector.

- Screening of film on Step by Step procedures in setting up of Community Radio developed by CEMCA with the support of Ministry of Information and Broadcasting along with some other films on the theme of Community radio was done. Ms. Monica Sharma explained, the application process for a new CRS with the help of the film in a step by step manner to the participants. The other films on CR enabled the participants to understand the importance of CR Stations in socio- economic development.
- Mr. Khushwinder Singh, BECIL, NOIDA, Uttar Pradesh oriented about the **technical** aspects of Community radio station along with the photographs of every step to give a
 direction to the participants about the pre-requisites for CR.
- **Operational CR Stations** Jnan Taranga, Guwahati, Friends Radio, Tripura, Radio Luit, Guwahati shared their valuable experiences and success stories with the participants regarding their Community Radio Stations.
- In the **interactive session**, the participants got the opportunity to discuss about the several operational issues like station management, role of advisory and programme management committees, content diversity, community engagement etc.
- **Session Content Generation** 'Building Capacity of Community' gave the idea about the types of programmes, formats of the programmes and how to sustain and ensure the content generation of the community radio station with the help of community. The session was well received by the participants.
- The awareness and importance of 'Project management in Community Radio' was also discussed. Steps for working on a project were discussed and along with the community outreach programme required for reaching out to communities. A few videos on projects were showcased to motivate the participants.
- The session on Fund and Station Management Session highlighted the key points to manage the station effectively and mobilise funds to sustain the station in an effectively.
- Fourteen participants gave Expression of Interest (EOI) indicating their willingness and enthusiasm in taking the next step of applying for a CR licence.
- Certificate of Participation was given to the participants on the last day.

PART I Context

Background

Community Radio (CR) acts as a vehicle for the community and it has been recognised as an important tool for enabling people's participation in governance, especially in communities with low literacy rates. It is a radio service which has a different model for broadcasting in comparison to the commercial and public broadcasting. Hailed as a medium that can give voice to the voiceless, CR also is well placed to promote and preserve the local culture and heritage of a community.

The first community radio policy guidelines in India were issued in 2002, permitting educational institutions and Krishi Vigyan Kendras to operate and run community radio stations. This was subsequently amended in 2006 to expand the scope further to include the NGOs and civil society-based organisations. As the nodal Ministry to permit licences of community radio in the country, the Ministry of Information and Broadcasting (MIB) has been actively engaged in promoting the growth and development of CR in India through a wide range of initiatives designed to encourage good practices among practitioners as well as encourage new entrants into the sector. Conducting CR Awareness workshops every year, across the country in association with different stake holders has been a regular feature of MIB. Approximately seventy such workshops have been conducted since 2007.

The Commonwealth Educational Media Centre for Asia (CEMCA), an important stakeholder in the CR Sector, has made a significant contribution to the sector over the years, including conducting more than 50 awareness workshops in the preceding years. This year CEMCA was tasked to conduct two more such workshops, one in Ahmedabad and another in Nagaland, with support of Ministry of Information and Broadcasting (MIB). The first workshop for the year 2019-2020 was conducted in December 2019 in Ahmedabad.

The following pages provide a detailed report of the second Community Radio Awareness Workshop of the year 2019-20, conducted at Nagaland, India from 11^{th} to 13^{th} February 2020.

Objectives

The specific objectives of the workshop as stated by Ministry are as follows:

The specific objectives of the workshop are:

- To generate awareness among the civil society, potential applicants, government departments and stakeholders
- ii) To propagate and demystify the Community Radio Policy and its processes

- iii) To motivate the participant from eligible civil society organizations to apply for the license to operate CR Stations
- iv) To explain and demonstrate the application/license process and facilitate "serious" and "eligible" applicants to submit application
- v) To provide an overview of basic principles of CRS, ownership, process of capacity building, content generation, technology, management, and sustainability of CR station.
- vi) In the current year, Ministry is organizing the workshops in CR Aspirational and Dark areas so that the organizations working in CR Dark areas should be encouraged to apply for CRS.

Workshop Agenda

- CEMCA designed the workshop sessions to ensure that participants not only got a good theoretical base but also engaged with key aspects of a community radio operations through a series of interactive sessions and PowerPoint presentations. The sessions included a sectoral overview, policy guidelines and provisions, step-by-step licencing process, technical requirements, content generations, community engagement, day-to-day CR operations and sustainability issues. The workshop participants were assigned group work for making it an interactive programme along with the presentations of their work
- See Annexure 1 Workshop Agenda

Participants

For the Nagaland Workshop, CEMCA identified approximately 600 NGOs and Educational institutions from the Aspirational and CR Dark District States of Nagaland and Manipur which was provided by the Niti Aayog, Govt. of India. A total of 48 participants attended the workshop. The participants were from educational institutions, Govt.

departments and NGOs. It may be mentioned here that a very large number of persons in the initial list were not reachable and not responding to email and /or in many cases the telephone numbers provided were incorrect. However, CEMCA used its own networks and those of currently operating CRS to expand the list.

See Annexure II -List of participants

Logistics

The Workshop was held at **the Conference Hall, Hotel Acacia, Dimapur, Nagaland.** All the non- local participants stayed in the hotel on twin sharing basis. The hotel staff willingly extended a very warm and cordial cooperation to all the experts and participants. In fact, the staff of the hotel worked very hard for making the program successful and this was acknowledged by the participants during participants' perception and feedback at the end of the program. The breakfast, lunch and dinner for all the participants was also arranged at the venue.

Registration and Supply of Workshop Kits

Participants were provided with a bag containing a reference book having the CR Policy Guidelines in English, sample copies of all documents including a filled in dummy Application Form, online applications of SACFA, WOL, GOPA and bank-draft formats were shown in the book. A film on step-by-step procedure of the licence procedure and other CR based films were provided in a pen drive for ready reference.

Furthermore, participants were also shown some films on CR made by students of mass communication in India, under the CEMCA CR Video Challenge, a yearly activity of CEMCA.

Part II

Thematic Sessions

Day 1 February 11th, 2020

The workshop started with an **Inaugural Session** on February 11th, 2020. The dice was presided by Prof Madhu Parhar, Director CEMCA, Prof Sapu Changkija, Dean School of Engineering &Technology, Nagaland University, Mr. Amit Dwivedi, PMU, CRS Cell, Ministry of Information & Broadcasting, Govt. of India.

CEMCA and its involvement with various activities in Education and Skill Sector along with its presence in Community Radio Sector. She addressed the participants and shared the objectives and scope of the awareness workshop. She added that Government of India is targeting to establish nearly 4000 CRS in the country, and steps are being taken to achieve the same. She mentioned about the diversity of our country in terms of languages, cultures and traditions and how many communities are still deprived of their basic rights and proper understanding of living life. She further added that community radio is the platform which connects many people and provides the opportunity to bring the social change. She ensured for the support to the participants while establishing CRS while mentioning that CEMCA has guided and helped more than 100 CRS for facilitating the grant of licence. At the end she extended a warm welcome to the experts from MIB, BECIL, Nagaland University, Experts from operational CR stations and all the participants.

This was followed by the Opening Remarks by Mr. Amit Dwivedi, PMU, CRS Cell, Ministry of Information and Broadcasting, New Delhi. He spelled out the priorities of MIB in the CR sector and assured all possible help and guidance to the participants for establishing CR stations in their areas. He briefly informed about various issues faced in the CR sector and how MIB is supporting and helping CR stations to resolve them. He also shared the objectives regarding the awareness workshop. He said that All India Radio is a big station which has their own protocols to conduct their program with some limitations, but by the establishment of community radio station which has coverage of 5 to 10 kms, we can broadcast effective programmes for local community. The areas with less connectivity can be benefitted most from CR.

Prof Sapu Changkija then gave the inaugural address and mentioned about the relevance of

Community Radio in the context of North East and specifically for the Nagaland state. He mentioned that how the folk art and culture of Nagaland can be kept alive through the platform of CR. Also, the local problems can be dealt by spreading the awareness through this medium. He also mentioned benefits of CR in general. He drew the attention of participants towards how the focus of the mainstream media is the upper middle-class urban population, while the

CRs addresses the needs of the community located in the vicinity of the CRs. The role of CRs especially during the floods and natural calamities helps connecting people and reducing the effects of disaster. He motivated the participants to actively participate in the workshop and understand the complete process of setting up the CR station and running the same.

After the Inaugural address a self-introduction round was conducted where all the participants and experts gave their brief introduction along with their affiliation. During the introduction, participants actively shared their experience in the social work and development.

At the end of Inauguration session, Ms Monica Sharma presented the vote of thanks. She added that CEMCA and MIB have a long association of more than 10 years in promoting the community radio development in the country. The establishment of community radio stations serves to strengthen the democratic culture of the country by giving voice to voiceless at the grassroots level.

Session II was an introduction and interaction session with participants, where Mr. Amit Dwivedi, PMU, CRS Cell, Ministry of Information and Broadcasting (I&B) invited all the participants to share their expectations from the programme. The expectations from the workshop were chalked out and planned to be discussed in detail during the workshop to get a clear picture of Community Radio concept and its objectives. Introduction to Community Radio Policy Guidelines and Application Process was also presented by Mr. Dwivedi, where the application process and guidelines of community radio were shared. He also explained the Support Schemes of Ministry to the potential organisations in setting up the community radio in their areas. A few expectations chalked down during the session were also dealt with in detail while explaining the policy and guidelines. Some ethical issues regarding the broadcasting were also discussed during the session.

In the 3rd Session, Prof Madhu Parhar, Director CEMCA enlightened the participants about the need of community radio in education and Skill. She stressed on the relevance of utilising the power of community radio in spreading the awareness about education, health, natural disasters and promoting local art and skills. She took this platform for discussing

employment opportunities with experts in local skills for new generation, this way guidance of expert could reach the unreached. She further added that educational experts can also guide the younger generation. Higher education opportunities can be discussed and brought to the community. At the end she mentioned that opportunities and options are many, and one needs to go to the community and understand their needs, identify the gaps and provide the content as per the needs and context relevant.

During the 4th Session, the operational Community Radio stations from Assam and Tripura shared their experiences with the participants where Dr. Sangeeta Kakoty, Jnan Taranga CR Guwahati and Ms Debanjana Deb Barman, Friends Radio, Agartala presented a power point presentation on their CR Station that has been going on for few years. They both talked about the set-up of their CR and programmes produced by their station on based of the need of their community. Radio Jnan Taranga worked during the flood and guided the community towards the rescue operation. It is running since past 9 years successfully with the support of community. Friends Radio shared a story of guiding a girl towards preparing for her class tenth board exams and she scored well. Both the radios are playing active role in community upliftment. Friends Radio also shared their difficult starting journey of obtaining the license. Both the experts later answered the queries raised by the participants about setting up the station and involving the community.

Prof Parhar, the chair of the session summed up the session with her own observations and explained how one could get benefit from these valuable experiences shared by the experts from operational radio stations. She stressed on the importance of communication and how it play a key role in the society development and community radio could be used as the source of change maker. She further added that the success of radio program depends on the involvement of local community in it and the programmes should be developed according to their needs. So, first the community radio shall go to the community to identify the problems and needs and then while involving the community the programmes shall be produced and broadcasted. It will also bring a sense of ownership amongst the community.

Day 2

February 12th, 2020

The 1st Session of the day started with a detailed presentation by Dr. Sangeeta Kakoty on 'Content Generation – Building Capacity of Community'. The session detailed out on the types and formats of programmes. All the formats were discussed one by one with real examples to enrich the participants. This interactive session generated a lot of interest and questions as experts shared their experiences on community engagement while developing programmes. The experts told that community should plan their programmes related activities i.e. Topic, content, area, team etc. The session also raised several operational issues like station management, role of advisory and programme management committees, content diversity, community engagement etc. Being the session core to the heart of the participants, the discussions went well beyond the stipulated time as participants showed boundless curiosity and interest in different aspects of running a station. The experts guided the participants about how a program should be on like gender based work, language, staff selection, use of social media, useful information, feedback, short and effective program, success stories and also regular communication with the community is important for the success of the community radio.

After the session content was recorded for demonstrating the broadcasting to the participants.

The Session ended with CEMCA honouring the guests/ experts with mementos

In the Session II, Mr. Khushwinder Singh, Manager of BECIL, Noida, Uttar Pradesh gave a technical presentation on community radio station that enlightened the participants in various ways. He explained in detail the budget and technical aspects in terms of setting up a community radio. He gave the

broader idea of the location, equipment and technical aspects in terms of community radio.

Session III also dealt with experience sharing by Dr. Chandan Kumar Goswami, Radio Luit, Guwahati. He emphasised on the ethical issues related to broadcasting and he also guided about how to differentiate between information and news prior to broadcasting. He suggested certain ideas to involve community while developing programmes. He suggested an important idea that before applying for the community radio station community shall be taken into confidence, and they shall be informed. The participants enjoyed his simple but informative talk and useful points and they raised many queries pertaining to different aspects.

At the end of the session films on community radio were screened for participants by Ms Monica Sharma. These videos helped the participants to have a better understanding of CR Stations and how useful it is within the community and how it leads to a more informed and developed community. Step by step film to set up community radio station developed by CEMCA with the support of Ministry of Information and Broadcasting, New Delhi, was also showcased. Ms. Monica Sharma played a major role in developing this video which is very interactive and useful tool for the aspirational participants. The steps related to procedure, documents, eligibility and fund requirement in setting up the community radio station were explained in the video in a simple manner. The participants appreciated the effort made in

Session IV was again a technical session by Mr Khushwinder Singh. He demonstrated the whole process of broadcasting the same content recorded in the morning using a smaller transmitter. He demonstrated the machine and various functionalities of the same for broadcasting. Later he answered all the technical queries raised by the participants along with a detailed presentation of equipment and its fixing. He threw some light on the location of antenna, type of antenna which was an important information for everyone as it could help in getting the license. He also discussed about the fund management and station management of community radio. He encouraged the participants to look for avenues apart from funds generation from DAVP advertisements and grants from other ministries which sponsor the projects of the CRS. He wished that involvement of community in the management committee of the CRS would go a long way in filling the gap in respect of funds. The subsidy released by the ministry for the region to the tune of Rs 7.5 lakhs may partly mitigate the financial problem of the station. Unless the local community involvement is ensured the financial problems would exist forever. The session ended with Q&A on fund management.

Day 3

February 13th, 2020

Session I of the day started with a presentation on Project Management in Community Radio by Dr. Monica Nagpal. She introduced the participants to how a skill can promoted through community radio and what are the steps to successfully complete a project. She introduced that Bamboo industry is big industry in North East but still of we look for any big businesses there are hardly. So how CR can be utilised to guide and orient the communities to start

entrepreneurship. Also, how a CR can apply for such a project so that they have funds to produce quality programmes. Need of baseline surveys, research and expert guidance while developing script and programmes. Understanding the importance of outreach programmes in project management were few areas which were explained in detail. Later 2-3 films on Bamboo were showcased to give an idea how Bamboo industry is flourishing and what is the scope for local communities to be befitted from this.

Later a project on health was also discussed which was done by CEMCA with CR stations under the Department of Science and Technology.

Session II was on group work and it was mediated by Ms Monica Sharma. All the participants were divided into groups and were assigned a step wise topic for starting and running a community radio station. The groups were given a time of 20 minutes to discuss and write their points. Later one member from each group presented their work. And other participants added the missing points. This interactive session was appreciated by all as it helped the participants to understand the concept of Community Radio in detail and practically they present their thoughts and doubts.

At the end, feedback forms were distributed to all the participants.

Recommendations

- Hands on experience for programme production should also be a part of the workshop.
- 2. Local administration should be actively involved in the workshops for future actions.

- 3. The procedure to set up CRS should be simple and short.
- 4. To raise the fund to meet the initial cost to set up the CR station is the major concern.
- 5. In dark districts the information regarding Govt Policies should properly imparted to the local community.

Concluding Session: Valediction and Feedback from Participants

The last Session was a formal Valedictory where the vote of thanks was addressed by Ms. Monica Sharma, Programme Assistant, CEMCA, New Delhi. She presented a brief summary of the workshop and invited the participants to express their views before beginning the valedictory function. She advised the participants to look for innovative ways for launching CRSs and maintaining the standards.

Most of the participants expressed complete satisfaction on adherence to the schedule of the program and perfect arrangements made and they also gave excellent feedback about the workshop in their feedback forms.

The certificate for the participation along with a pen drive containing the material regarding setting up of CR were given to the participants by CEMCA officials.

The workshop ended on a high note with active participation of the participants and total 14 Expression of Interest (EOI) were given indicating their willingness to take the next step of applying for a licence.

She also congratulated participants who gave the Expression of Interest.

Towards the end of the session, some participants made observations about the workshop. They also thanked MIB and CEMCA for organising a highly rewarding workshop and expressed their gratitude for excellent hospitality.

Annexure 1- **Media Coverage**

The Event was well covered by the local Press See Annexure 6 for News clippings.

Press Release

NGOs from Manipur and Nagaland attend community radio workshop

NAGALAND 14 February 2020 / 0 Comments

Participants with officials and others during the three-day community radio awareness workshop held at Hotel Acacia,

Dimapur from February 11 to 13.

Ministry of Information and Broadcasting and CEMA aims to increasing presence of community radio stations across Northeast India

Dimapur, February 13 (Mexn): The Ministry of Information and Broadcasting (MIB), Government of India in

association with Commonwealth Educational Media Centre for Asia (CEMCA), New Delhi, successfully organised threeday

community radio awareness workshop at Hotel Acacia, Dimapur from February 11 to 13.

With this workshop, the Ministry and CEMCA are looking to guide and support the interested participants in their

application for community radio station licence hereby increasing the presence of community radio stations across the

eight states of Northeast India.

A press release received here stated that various NGOs from Manipur and Nagaland participated in this workshop which

aimed to build awareness and clear any doubts among the participants around the procedures to set up a community radio

stations like programme types they can follow, coverage area for frequencies, costing, basic requirements, role of

community etc.

Prof Madhu Parhar, Director, CEMCA who led the workshop along with the team welcomed the different organisations

participating in the workshop and shared about the initiatives the Government of India and CEMCA have been taking up

to promote community radio in different parts of the country.

Prof Sapu Changkija, Dean, School of Engineering & Technology, Nagaland University, also gave the inaugural address

and stressed upon the need of community radio stations in North East India.

Amit Dwivedi, PMU, Community Radio Cell, MIB also enlisted the advantages of community radio along with the details

of setting up Community Radio Stations and the various government policies and schemes one need to keep in mind while

applying for license.

The workshop also had representatives of various community radio stations from across Northeast India namely,

Debanjana Deb Barman of Friends Radio, Tripura and Dr Sangeeta Kakoty of Jnan Tranga from Assam who shared their

experiences around the operations and working of CR stations.

Community Radio Awareness Workshop for Northeast India

Dimapur, 13th February 2020

Community Radio Awareness Workshop for Northeast India at Dimapur, 13th February 2020

Ministry of Information and Broadcasting organises 'Community Radio Awareness Workshop' for Northeast

India in association with CEMCA

The Ministry of Information and Broadcasting (MIB), Government of India in association with Commonwealth Educational Media Centre for Asia (CEMCA), New Delhi, has successfully organised a three day Community Radio Awareness Workshop at Hotel Acacia, Dimapur, Nagaland from 11th to 13th February 2020.

Various NGOs from Manipur and Nagaland participated in this workshop which aimed to build awareness and clear any doubts among the participants around the procedures to set up a Community Radio Stations like programme types they can follow, coverage area for frequencies, costing, basic requirements, role of community etc.

Prof Madhu Parhar, Director, CEMCA who led the workshop along with the team welcomed the different organisations participating in the workshop and shared about the initiatives the Government of India and CEMCA have been taking up to promote community radio in different parts of the country.

Sub: Expression of interest for establishing a Community Radio Station

Respected Sir/Madam,

With regard to the aforementioned subject, I am hereby submitting this Expression of interest letter for establishing a Community Radio Station at Rajeshwari Karuna School, Tuli (CBSE), under Mokokchung District, Nagaland, a project of Community Educational Centre Society. I have read the Policy Guidelines for setting up Community Radio Stations and I kindly request your esteemed authority to consider my Expression of Interest for the same.

I hope and pray that you will me give me the opportunity to pursue this privilege. Thanking you in anticipation.

Yours sincerely,

(SUBONENBA LONGKUMER)
