Online Workshop on Use of Technology for Online Teaching & Learning

05-07 December 2020

Background

The COVID-19 pandemic has imposed multifarious challenges before the conventional and ODL educational organizations across the globe. The learners face difficulty to access the learning materials, reach their instructors and various stakeholders. The situation is more prominent for ODL institutions, where large numbers of learners belonging to different socio-cultural background are enrolled. The present scenario compels the educational institutions to search and adopt innovative ways to reach to their learners. Technology is a solution to address many of those challenges. There are various user-friendly technologies that could be adopted to reach and teach the learners spread across various geographical locations. Hands-on training on these tools will empower the educational institutes to disseminate high quality educational content to their learners.

This becomes more contemporary for the Open Universities since they are now progressing towards disseminating web-based content to their learners. With the emergence of new technologies, the universities have to move fast and keep the pace with the rest of the world.

Considering the above, the practitioners of ODL institutes needs to be trained to meet the challenges of the future. In this connection, Pt. Sundarlal Sharma (Open) University (PSSOU) Chhattisgarh, Bilaspur in collaboration with Commonwealth Educational Media Centre for Asia (CEMCA) organized three-day workshop on Use of Technology for Online Teaching & Learning.

Workshop Objective:

The objectives of this three-day workshop were to:

1. Use various Google -educational applications to reach and teach the learners;
2. Create virtual classroom using Google Classroom;
3. Develop educational audio resources various FOSS tools
